

# An Essential Balance

FOR TEENS AGED 13 - 17 YEARS

*“We all know the critical role studying and having a strong education foundation plays in a person’s life. However....*

*“ ..... it is equally important to expose young people to the concept of work experience and skill development, that will not only help them define their career paths, but also expose them to real life experiences early”,* says Natalie Ojeisekhoba, CEO, NUEJOS GmbH

Since 2021, Senior High School and Post Graduate students have had the opportunity to work part-time at NUEJOS, during either school holidays or at the weekends.

Work Experience in Childcare and Hospitality

## Empowering Our Youth

In response to the increased interest and demand for such opportunities from our local and international community, NUEJOS is pleased to announce our **new Teen program, providing 13 to 17 year olds with age-appropriate internships, work experiences and part-time jobs in Hospitality, Childcare, Digital Marketing, Business and more.** We have also partnered with other experts and educators to **offer life skill and training courses** as after school programs.
